

Document Title:	Urine AFB	
-----------------	-----------	---

Equipment:

3 x Yellow top sterile containers

Patient Instructions:

1. Collect the first early morning specimen. Collect 1 specimen each day on 3 consecutive days.
2. Fill the container to three-quarters full.
3. Secure the lid tightly to avoid any spilling or leaking.
4. Write your surname, first given name, date of birth, date and time of collection on the container.
5. Refrigerate the specimens and return all samples to the collection centre after the last specimen is collected.

When the specimens are dropped off at the collection centre, the collector will confirm your surname, first name, date of birth, address and phone number and time and date of collection.
